

LUNCH & LEARN

~ Innovative Concepts and Alternative Delivery Methods ~

DATE: August 6, 2015

TIME: 12 pm– 1 pm

LOCATION: MTS
Board Room
1255 Imperial Avenue, Suite 1000
San Diego, CA 92101

Join WTS-San Diego for their Lunch & Learn Program! August's Theme is **Innovative Concepts and Alternative Delivery Methods** for current transportation issues, and the Topics will be:

*** Alternative Delivery ***

New construction delivery methods are now available to owners – how is an owner to decide which one is appropriate for the project? The presentation will summarize and compare the following alternative delivery methods: Design Build Bid, Construction Management General Contractor (CM/GC), Design Build, and Private Public Partnership (P3). Advantages and disadvantages will be discussed with the goal to assist engineers and owners to choose the “right” method for their project. Examples will be shown.

*** San Diego River Bridge Double Track Project ***

This Project will double track a 0.9 mile segment, including a 900-foot new double track bridge spanning the San Diego River, to the existing LOSSAN corridor. The project is being delivered using a CM/GC approach and will be the first major construction package tied to the Mid-Coast Corridor Transit Project. Coordination has been required with MCCTP, NCTD, San Diego MTS, City of San Diego, and Caltrans. The presentation will address several challenging design constraints along its alignment and innovative solutions.

Please note, this event is free and open to students and public sector professionals only.

A light lunch will be served.

Space is limited, please register at the following link:
