

LUNCH & LEARN

~ Alternative Designs and Delivery Methods ~

DATE: May 5, 2015

TIME: 12 pm– 1 pm

LOCATION: Caltrans District 11
Gallegos Room
4050 Taylor Street
San Diego, CA 92110

Join WTS-San Diego for their Lunch & Learn Program! May's Theme is Alternative Designs and Delivery Methods for current transportation issues, and the Topics will be:

*** I-805 North HOV-BRT Design Build ***

An overview of the project challenges, solutions, and how the design build process worked. The presentation will include interesting aspects of the project as well as lessons learned.

*** Roundabout Design Best Practices ***

Roundabouts have been part of the U.S. transportation system for more than a century; however, their popularity waned in the 1950s. Today, with the help of innovative design elements and best practices, roundabouts have received an extreme makeover and are now making a big come back. Please join Kimley-Horn and Associates—a leading national consultant in the planning and design of roundabouts—to learn more about the “modern roundabout” and why it is a viable intersection alternative, especially as a component of a complete street.

Please note, this event is free and open to students and public sector professionals only.

A light lunch will be served.

Space is limited, please register at the following link:
please provide link here and if necessary, the full URL address in a separate line. Thanks!
