Testimonies

Summer 2013

My time in J-CARP has been an eye opening experience as a European 2nd gen. When I first arrived at the J-CARP Sousei centre, I was made very welcome by all the J-CARP members. The centre was packed full of Tokyo and Waseda university students, first and second gens, all crammed into this small centre in downtown Tokyo. I noticed a strong sense of family atmosphere within the centre, where they would all do pretty much everything together, including studying, eating and sleeping. I am very grateful for their enormous hospitality and the precious time they set aside to give us a meaningful and rich J-Carp experience.

~Daniel Finch~

I was surprised about the high standard of life that they kept. I couldn't imagine that students could invest so much of their time doing witnessing and helping the Carp activities while they studied at university. I had the chance to go witnessing almost every day at Waseda University and it was a very unique and interesting experience. Now I consider Carp lifestyle as a good training to strengthen our life of faith as well as to improve our character, learn to have a more public mindset and to understand how to balance student lifestyle with spiritual activities. I also had a really good insight into the Japanese culture and traditions and thanks to this experience I can now understand deeper my mother's original roots.
