

A testimony for Safe Hospitality

Dear fellow citizens,

I work for Domino's Pizza in Winnipeg, and had a learning curve placed on my lap in 2010. A government safety inspector (Safety and Health Officer, Inspection Services Branch) stopped in at a few Domino's locations and noted that we really didn't have a safety program.

We were given an improvement order. What that really meant is that if we didn't have a functioning safety program in our restaurants, we would not be able to continue operating!

Creating a safety program became my task number one!

I was informed of the services that Safe Hospitality provides, and that many of their services are free to those in need. They gave me step by step details, with templates and ideas. Then they guided us with info and with courses for certification.

We simply would have had to spend hundreds of hours, dazed and confused, without their help! **The task was made manageable by their team!**

We in the restaurant industry can be of help to them. And, trust me, the time will come when you will need their help!

Please give them a show of support!

If you would like to contact me with questions on how they helped, my email address is glennsikorski@gmail.com.

Best Regards!

Glenn Sikorski
Domino's Safety and Health Manager (Since 2010!)
