

Wolfbotics at Orlando FRC Regionals

The 2015 Wolfbotics team shipped their newly constructed robot to the University of Central Florida in Orlando in preparation for their March appearance in the Orlando FRC Regional competition.

Only in their second year of competition, the Wolfbotics team, a member of the Blue Alliance, finished a respectable 34th out of a field of 64 high school teams.

This year's game is RECYCLE RUSH!, a recycling-themed game played by two Alliances of three robots each. Robots score points by stacking totes on scoring platforms, capping those stacks with recycling containers, and properly disposing of pool noodles, representing litter.
