Just back from the giant trade show KBIZ in Las Vegas, we will take a look at upcoming trends for kitchen and bathrooms. Julie will talk about appliances, colors and materials wowing today's homeowners!! Learn what is on the cutting edge and sharing it with your clients.

In this engaging presentation, Julie will share with you:

- Some of the latest trends in Kitchen and Bath designs
- How the kitchen is part of the evolving connected home
- Ways to easily identify the best products to use in high use areas
- Why a certified designer can be one of your best assets
- Where antique brass is coming back and how to use it in your projects

JULIE WILLIAMS DESIGN
KITCHEN, BATH & SPACE PLANNING

About our speaker:

A Certified Kitchen and Bath Designer (CKD, CBD), Julie has 30+ years of experience in the design industry. After graduating from CSU, Long Beach, she completed an intense two-year architectural/interior space design program. In 1987, she had the opportunity to be trained by Ellen Cheever, a Certified Master Kitchen and Bath Designer who has authored many of the industry's design principles and standard training manuals. Julie opened her own business in Southern California and later relocated to Northern California in 1991 where she established Julie Williams Design. One of the most important aspects of her design style is her philosophy of form follows function. Develop a great layout first, then make it beautiful-incorporating the client's style and turning their wish list into reality.
