

You are invited ...

## Youth and E-Cigarettes Workshop

Wednesday, February 10, 2016

2:30pm - 4:30pm

Toiyabe Indian Health Project Multi-Purpose Room

The prevalence of e-cigarette use by youth has risen dramatically over the last 3 years. E-cigarettes are currently unregulated so usual tobacco rules do not apply to them. This workshop will focus on the marketing of e-cigarettes to youth, how to identify them, and what the community can do to combat experimentation and use of e-cigarettes by youth.

---

**Who should come:** anyone working with youth or interested in e-cigarettes

**Presented by:** Chris Cooper, Tobacco Specialist with California Rural Indian Health Board
