

# WALKING WATER

MONO LAKE • OWENS VALLEY • LOS ANGELES

## **Walking Water is pleased to invite you ...**

An evening of story and images - the first phase of Walking Water from Mono Lake to Owens Lake. In September 2015, with 35 walkers, both local and global, we began our journey.

We are walking from Mono Lake to Los Angeles over three years in three-week phases to raise awareness of water issues and contribute to the restoring of relations and community empowerment.

This evening is an opportunity to share some of the story of that journey and to introduce all to the next phase from Owens Lake to the Cascades beginning this September. Please come and explore how you might be connected!
