

Bishop, CA Regional Forum: Public Agencies & Stakeholders

Caltrans is conducting Regional Forums across the state with local and regional agencies and key stakeholders to support the development of the first **California State Bicycle and Pedestrian Plan (CSBPP)**. This new visionary and comprehensive policy plan will promote a multi-modal transportation system that supports active modes of transportation and creates a framework to increase safe bicycling and walking.

Organizations and local and regional agencies are invited to an open house as part of the Regional Forum in your area to provide early input to the planning process. Your entity's participation will inform how Caltrans can strengthen collaboration and coordination in planning, designing and implementing active transportation projects at the local level. Meet the project team and learn more about the process, including future outreach activities.
