**Thursday Tours-** Golf For those interested in spending a relaxing day golfing on a beautiful, rustic course, surrounded by farmland, wildlife and water, Beaver Dam Golf course is just what the doctor ordered. Located in the hamlet of Madden, this course was built by the Walsh family, a pioneer family dating back to 1889. While trying to diversify the family farm almost 25 years ago, Loris, suggested to his sons, Harley and Richie, that they build a golf course in the coulee that couldn't be used for farm land. It was Loris's hope that this golf course could sustain the entire Walsh family on the property, rather than his sons having to find work off farm during the off-season. Now the golf course which has been open since 1991 employs some 25 people, including both brothers Harley & Richie; their spouses, Vivian &

Linda; their oldest sister Deb; along with a new generation, Richie and Linda's daughter, Kendall and her husband John. The course also features a kitchen ran by Harley and Richie's mother, Helen Walsh, whose cooking skills are so appreciated by golfers and neighbours people are always stopping in for coffee on a regular basis. This course may seem a little rustic, but once you get out on the fairways, you will see this is a true gem – not to be missed by any casual or enthusiastic golfers.
