

Last year, The Cass Area Transit partnered with the city of Logansport to create a pilot program that provided a continually flowing “city bus” route. Our bus was designated for our “heavy traffic” destinations.

The city of Logansport has agreed to partner with us again, adding more stops than before as well as a second bus to further meet our community’s public transportation needs. All routes and bus times can be found in this brochure.

The city bus is here to serve you! The route is open to all and is designed to flow efficiently with the attached schedules.

***\*\*Cass Area Transit complies with all ADA requirements. We offer Handicap vehicles upon request. Service animals are permitted on all busses.\*\****
