

DEPARTMENT OF WATER MANAGEMENT
CITY OF CHICAGO

November 16, 2015

The Honorable Michele Smith
Alderman, 43rd Ward
2523 N. Halsted St.
Chicago, IL 60614

**RE: DEPARTMENT OF WATER MANAGEMENT
INFRASTRUCTURE IMPROVEMENTS IN YOUR WARD
N. CLIFTON AVE. WATER MAIN**
W. Fullerton Ave. to W. Webster Ave.
W. WEBSTER AVE. WATER MAIN
N. Racine Ave. to N. Seminary Ave.
N. SEMINARY AVE. WATER MAIN
W. Belden Ave. to W. Armitage Ave.

Dear Alderman Smith:

The Department of Water Management is pleased to inform you of its intent to construct a new Water Main project in the 43rd Ward.

Joel Kennedy Constructing Corp. will install approximately 4,115 feet of 8-inch water main at the subject project location. As part of this project the west half of N. Clifton Ave., the westbound traffic and parking lanes of W. Webster Ave. and the west half of N. Seminary Ave. will be resurfaced along with the repair of damaged parkway and sidewalk.

Water main installation is anticipated to begin in mid December 2015 with completion of the water main installation in early March 2016. Once the water main is installed the street will be restored so that traffic is not impacted. However, final restoration will not occur until the spring of 2016 or until weather permits.

After the new water main has been installed, the described area will experience an increase in the availability of water for fire protection and domestic use. This project is part of Mayor Emanuel's commitment to Chicago citizens to maintain and upgrade Chicago's infrastructure.

Every effort will be made to expedite project completion and minimize the inconvenience to your constituents. Should you or your residents have any questions regarding the progress of this project, please contact Mr. Hans Krueger at the Bureau of Engineering Services at 312-742-3611 or Hans.Krueger@CityofChicago.org.

Very truly yours,

Thomas H. Powers, P.E.
Commissioner
