

High School
Paid Summer Internship
June 13 – July 27th
Monday, Tuesday, Wednesday
8am – 4pm
\$1,200.00 for the 6weeks

The City of Dallas Environmental Education Initiative has served teachers, students, and the community since 2006. We provide water conservation and recycling education in grades K-12.

The EEI High School student Internship provides an opportunity for high school students to conduct college level research on real world issues alongside graduate students and research professors.

What will we be doing?

- Graduate level research on water conservation
- Analyze water conservation data
- Develop a research project presentation
- Present summer research findings in front of City of Dallas officials

Where will we be going? ***

- Research will be conducted at Dallas City Hall and at the University of North Texas in Denton
- Water & Wastewater Treatment Plants

We will celebrate the final day of the internship with a lunch!

Eligibility Requirements:

- Student in grades 11 & 12
- Attend a school or live in Dallas city limits
- Have at least a 2.5 GPA
- Be present for the entire program
- Have volunteered or performed community service for at least 10 hours
