Whole Home Efficiency: Ways to Save Energy and Money

DATE: Tuesday, July 21
TIME: 12-1pm (lunch provided)
LOCATION: Harper College
Avante, Room Z119
RSVP: abandman@harpercollege.edu
847-925-6000 x2603

A brand new smart meter is coming your way! Utility companies throughout Illinois have developed new smart grid and smart meter technology to modernize electrical infrastructure to provide consumers with a stronger, reliable grid. Learn how this upgrade will help you take control of your energy usage, get you started on making home energy efficiency improvements and save you money!

Join Elizabeth Corrado from nonprofit Elevate Energy as she talks about the new smart grid and smart meters that are being installed in your home and the benefits to you as a consumer. RSVP to Amy Bandman using the information to the left. FREE LUNCH will be provided. Please bring your own drink.

A Live Green, Eat Fresh program presented by the Harper College Sustainability Work Group
