

Intermediate Stained Glass aka Stained Glass Workshop

- EIGHT WEEK SESSION -

*Use of Basic Tools is Included
Chemicals and Use of the Saw are Not Included*

Continue your training in Stained Glass. This is an opportunity to reinforce your skills, start learning professional techniques and developing problem-solving proficiency.

Select your pattern and glass for your project before class begins.

If you are creating your next stained glass panel, trace your pattern onto Sticky-Back Paper (remember to number each piece and mark the grain and color before you cut it apart). Cut out the pieces with Pattern Shears. We suggest that you sort the pattern by color as you cut it apart and put the pieces into separate envelopes for each color.

Remember to bring pattern, glass and tools to each class.

We appreciate it when you buy your tools and supplies here at Harmony. By doing so, you help ensure that your local stained glass store will be here as a place for fun and learning for many years to come.
