Learn to create amazingly beautiful artwork
with *Colors for Earth* fusible glass enamels!

Even if you have never cut glass or think you do not know how to paint decoratively, Margie will show you that it is easier than you think and more fun than you could imagine! Every person will create a uniquely lovely piece of art in this class.

If you wear glasses and/or readers, you may want to bring a stronger lens than usual so that you can see details. Class fee includes all materials and one firing.

Your family and friends might not believe you when you proudly say,
"I made it myself"!

We appreciate it when you buy your tools and supplies here at Harmony. By doing so, you help ensure that your local stained glass store will be here as a place for fun and learning for many years to come.
