

Beginning Stained Glass (FIVE SESSION CLASS)

This class is your foundation for future glass techniques. In five weeks you will create a 9"x 14" stained glass panel using the technique developed by Louis Comfort Tiffany. You will learn all of the skills required including cutting, fitting, foiling, soldering, framing and finishing. In addition to your tuition, you will purchase the glass and a "Goody Bag" of supplies needed to complete the class. Tool rental is included in tuition.

Before class begins, you need to visit Harmony to select your pattern and pattern supplies. At that time, we will show you how to prepare your pattern so that you'll be ready for your first class.

It's in the Fine Print below, but to be sure:

*Please bring or purchase Safety Glasses on first day of class
Always wear closed-toe shoes to class*

We appreciate it when you buy your tools and supplies here at Harmony. By doing so, you help ensure that your local stained glass store will be here as a place for fun and learning for many years to come.
