Vanasse Hangen Brustlin, Inc. (VHB) is a premier engineering firm that provides services in four core areas including planning and design, transportation, land development, and environmental services.

VHB has four full-service offices in Virginia, namely Richmond, Williamsburg, Greater Hampton Roads, and Tyson’s Corner; and, an additional 18 offices along the east coast. From these offices, VHB provides multidisciplinary planning, design, and engineering for some of Virginia’s most complex infrastructure and development initiatives. The firm serves markets that include transportation agencies, healthcare, municipal and county governments, federal government, education, real estate, energy, and natural resources.

VHB has been actively operating in Virginia for 23 years and is staffed by 140 engineering professionals. Premier industry publication Engineering News-Record ranks VHB 76th of the Top 500 Design Firms nationwide, and CE News consistently names VHB among the best civil engineering firms to work for in the U.S.
