

Dialysis Provider Staff: Join us for a free webinar.

# Safe Injection Practices: Protecting Patients from Bloodborne Pathogens

Tuesday, June 7, 2016 • 1:00 PM–2:00 PM

Learn about safe injection practices, a set of measures recommended by the Centers for Disease Control and Prevention's (CDC's) **One and Only Campaign\*** to ensure that injections are performed in a manner that provides optimum safety for patients, healthcare personnel, and others.

The webinar will feature evidence-based recommendations for safe injection practices and minimum standards that healthcare personnel should follow to prevent transmission of infections in healthcare settings. Issues that will be addressed include...

- What are some procedures that have been associated with unsafe injection practices?
- Can some of these unsafe injection practices also result in transmission of bacterial infections?
- How can healthcare personnel ensure that injections are performed correctly?
- Can multi-dose vials be used for more than one patient? How?

You can submit your own questions prior to the webinar: [www.surveymonkey.com/r/OneandOnly](http://www.surveymonkey.com/r/OneandOnly)

This webinar is presented by staff from the New York State Department of Health.

The NY State Department of Health is a funded Partner State of SIPC and the One and Only Campaign:
