Don't Become a Phish!

Protecting Yourself and the Health System from
Phishing Attacks and Identity Theft

**Tuesday, November 17, 2015
12:00 pm to 1:00 pm.
MCHC Auditorium (F2305)**

Presented by: Jeff Hill (MCIT), Jonathan Mills (MSIS) and UMHS Compliance

Phishing attacks are becoming more sophisticated and are increasingly targeting health care and medical research employees at all levels. These attacks put our patients' PHI, our research data, and our personal information at risk.

This presentation will offer tips for recognizing and resisting phishes. Test your phishing savvy using a simulation exercise – it's harder than you think!
