

RDSP

Presented by **PLAN Edmonton**

After you die or are unable to provide care, how will your relative with a disability manage their affairs? Who will advocate for them?

PLAN Edmonton is a family-directed, registered charity that assists families in developing a plan for the safety and security of their relative with a disability.

PLAN Edmonton is sponsoring a free **RDSP session** of interest to parents and other family members who are, or may be, involved in planning for the future security of a relative with a disability. The workshop covers in-depth information about the RDSP.
