CPA (Alberta) Opening Doors with Planat

CPA (Alberta) is now an authorized re-seller of planat. planat.com is an easy-to-use, interactive and innovative on-line tool of the Rick Hansen Foundation for venues to: showcase their accessibility features; help customers make informed decisions; and grow their business.

It's exciting. It's important. And it aligns with our goal to empower persons with spinal cord injuries and other physical disabilities to live full, active lives in whatever community they choose, free from barriers.

Accessibility Consultants of CPA (Alberta) conduct assessments on buildings and public spaces (including parks, recreation centres). The results of the assessment are then posted on planat.com.

For example, a Regional Accessibility Consultant will provide a detailed site assessment of the venue and then post all detailed features (including photographs) on planat.com. This includes a standardized review of all features including: parking, sidewalks, entrance ways, common spaces, reception areas, restrooms, meeting spaces, guest accommodation rooms, pools, saunas and workout spaces.

We also offer practical accessibility solutions as part of the assessments for immediate impact. To find out more, contact any of our staff listed on the right. We would be more than happy to answer any of your questions.
