DON'T DELAY... ENROLL TODAY!

2015 Fall - Currents, Chemistry and Forces

Current Events

It's electric! Find out how electricity in our homes works by building a circuit and testing conductivity. See why fuses are fun by blowing one up!

Fantastic Flyers

Students will fly through the basics of flight and aerodynamics, learn about the four forces of flight, airfoils and rotors, then build and test their own Flyers!

Fun-damental Forces

Experiment with gravity, gyroscopic motion and centripetal forces. Experience the weirdness of precession and angular momentum!

Science of Magic

What's the magic word? Science! See how magicians use science to pull off some astounding illusions. Learn the secrets behind famous magic tricks that you can recreate for yourself!

Super Structures

Can we build it? Using triangles, cylinders and arches we can! Explore how combinations of these shapes stand up against the forces of compression and tension!

Under Pressure

Find out why "thin air" is actually one tough cookie! Use air pressure to create powerful vortices, lift a chair off the ground, and levitate balls in defiance of gravity!
