Gold Vermeil:

Gold is Eternal. It will never rust or corrode. Vermeil (ver-may) is a more expensive version of gold plated jewelry. Vermeil is made from a base of sterling which is electro plated with a gold of at least 2.5 microns in thickness. Our gold is 24K, thus it's rich color. Although the sterling layer is covered with gold, it might tarnish & hence darken the gold layer. Care should be given with oils, lotions & perfumes.

All gold plating takes up to two weeks to process.

Minimum opening order of \$300 & minimum re-order of \$100.

In stock merchandise will ship in three business days.

Backorders items take 6-8 weeks to ship. Backorders under \$50 will be canceled.

Terms:

Net 30 available subsequent with credit approval only

Merchandise Tags are printed on recycled paper, infused with wild flower seeds that can be planted.
