Is Your Association or Business Paying Too Much for Utilities?

Visit our **NEW** website.

You've installed energy saving technologies, conserved, and planted drought tolerant landscaping — but your business and association's common area utility charges are still *too high*. And drought conditions will drive up costs even more.

Enlist an ally to help you curb out-of-control utility costs: [Pacific Utility Audit](#).

Our new, interactive website provides a wealth of helpful resources for business owners and property managers:

- ROI calculator — estimate your utility audit savings
- Downloadable proposal packets ready to present to your association's board
- Articles, videos, and brochures that explain utility cost management

Our services can *recover money* for your business or association.

Pacific Utility Audit will identify overcharges in your business or association's utility bills, recover refunds for you, and find the *best rates* — saving you money now and in the future.

Our fee is a percentage of your refunds or utility savings. We get paid only after we get you **cost-saving results**.

We've saved clients thousands of dollars a year — net savings that boost profits and HOA reserves.

Ready to end utility overcharges once and for all? [Visit our website](#) — or [email us](#) to learn more about how a utility audit can save your business or association money.

Worried about how the drought will affect your business or common area water bills?

[Download our white paper](#) and learn how Pacific Utility Audit can help reduce your water utility charges.
