2016 Service School Registration

Pumps & Controls Class April 11-13, 2016

Advanced Class April 13-15, 2016

Overview:

Continual education is invaluable in today's industrial economy! That correlates precisely to proper equipment decisions, reduced operating and maintenance costs, lower budgets & peak performance.

EPG Companies Inc. provides just that! We offer a hands-on educational experience* designed to develop your knowledge, expertise and troubleshooting ability as you serve in your industry.

*Includes classroom discussion, presentations, and hands-on training. Receive up to 10 continuing educational units through SWANA (Solid Waste Assoc. of North America)

Attendees:

- Design Engineers
- Landfill Operators/Managers
- Installation Contractors
- Site Maintenance Personnel
- Owner/Operators

EPG classes are applicable for all who are involved with the design, maintenance and/or installation of Liquid or Gas Handling Systems and/or Remediation Systems.

Each class fee includes the cost of two nights hotel. Attendees must secure the room with a credit card and any additional nights are at the attendee's expense. Lunch is provided each day and dinner each evening (except Friday).

Pumps & Controls Class Topics:

- Using Test Meters / Arc Flash Basics
- Level & Flow Meter Basics
- Flares
- Motor & Electricity Basics
- Pump Basics
- Pneumatic Pump Basics
- Piston Pump Basics
- Pump O&M
- Controller Basics

*Several hours of "Hands-On" experience included.

Advanced Class Topics:

- Telemetry & HMI Concepts and Hardware
- Landfill Gas
- Arc Flash
- Electrical & Grounding
- Pneumatic Pumps
- Advanced Level & Flow
- Advanced Controllers
- Pump O&M
- Installation & Site Visits

*Several hours of "Hands-On" experience included.

Each attendee will receive printed copies of the lecture material, a hand-held level/flow simulator, and a clamp-on style electrical multimeter to take with them.

Registration & Payment is due by March 1, 2016 Cancellations: No refunds after March 8, 2016
