

Stefano Barone

composer
guitar player
producer from Italy

Stefano has a masterful guitar technique and an extraordinary control of the electronic effects and devices used in many of his creations. He skillfully uses the devices and effects at his disposition creating great orchestration and harmony. His Neapolitan roots gave him the innate and infallible sense of rhythm and the natural ability to improvise.

A perfect balance between acoustic and electronic, he performs live an uninterrupted program in which all the songs played are woven together in the most brilliant methods.

“He has an ultra-modern guitar playing technique and he is very skilled.”

- CHITARRE

“An Italian guitarist who has an incredible finger style technique that conjures some amazing harmonic and melodic sounds we didn’t even know an acoustic guitar could do on its own”

- FRET BASE
