

PLANT SALE

Brandywine Garden Club

The Brandywine Garden club will hold a plant sale on Wednesday, May 4, from 11:00 AM to 5:00 PM in the St. Albans Center at the Episcopal Diocese of Delaware at 913 Wilson Rd., Wilmington, 19803.

Featured plants are a large number of clivias of several shades of orange bred and grown by Mike Riska and a wide selection of unusual hybrid daylilies from the large daylily collections of two club members.

A wide selection of perennials for sun and shade from the diverse gardens of our members will also be for sale. Annuals for that extra bit of color in your garden, planter or hanging basket will also be offered. Some herbs for summer salads and cookouts or to dry for great flavors in winter dishes will be available.

Proceeds of the sale support the club's programs and projects including the Children's Garden at the Brandywine Hundred Library on Foulk Road, a garden or nature themed Christmas tree at Ronald McDonald House and contributions to the Delaware Nature Society, the Delaware Center for Horticulture and a variety of programs of the Delaware Federation of Garden Clubs.

Garden club members will be happy to answer your questions about the plants during the sale!

You may e-mail Susan Barefoot at as.brft01@verizon.net or call her at 302-479-5871 for information on the Brandywine Garden Club or the Plant Sale.
