

Aimpoint®

MICRO H-2

"TAKING THE PERFORMANCE OF
COMPACT REFLEX SIGHTS...
TO AN ENTIRELY NEW LEVEL"

The all new Micro H-2 redefines everything you thought you knew about compact red dot sights. Instead of merely making improvements to an existing product, we started with a completely new design. Inside the completely new sight housing are advanced optical lenses that takes optical performance to a new level. Cutting edge lens coatings radically improve the shape and clarity of the 2 MOA red dot. Compare the Micro H-2 to any other compact optic, the competition doesn't even come close.

Built to offer the same ruggedness as other Aimpoint products, the Micro H-2 is able to perform under extreme conditions while remaining user friendly.

HUNTERS ASKED.. AND WE LISTENED!

The Micro H-2 now offers front and transparent rear protective flip-covers. Physical protection has been added around the sight's adjustment turrets, and inside the sight to protect its electronic components. The sealed tube design means that no snow, rain, dust, mud, or sand will ever disrupt the operation of your sight, or ever get between you and your target.

With the Micro H-2, Aimpoint offers an aiming device that provides the performance and user friendliness of its full-sized sights in the smallest package possible. With numerous mounting options available on the market, it can be mounted on nearly every firearm you own.

UNIQUE FEATURES

- Advanced optical lenses for even better light transmission.
- Can be used on shotguns, rifles, handguns or archery tackle
- Black Front Flip-up lens cover is included.
- Transparent rear Flip-up lens cover is included.
- Reinforced protection of the turrets for even greater ruggedness.
- 1X (non-magnifying) parallax free optic.
- 1 Off position and 12 daylight settings
- Fully waterproof
- Integral Weaver-style mount allows easy attachment to any rail.
- ACET technology allows 50,000 hours (over 5 years) of constant operation from one battery.
- Available in 2 MOA dot size.
- Can be "piggybacked" on larger magnifying optics using an adapter.

APPLICATION AREAS

Hunters	Primary use
IPSC Shooters	Primary use
Law Enforcement	Primary use

APPLICATION FIREARMS

Pistol - Revolver	Primary use
Compound Bow/Cross Bow	Primary use
Magnum handgun	Primary use
Semi-automatic rifle	Primary use
Rifle with standard length action	Primary use
Rifle with shorter action	Primary use
Scout rifle	Primary use
Shotgun	Primary use

TECHNOLOGY

ACET	Advanced Circuit Efficiency Technology
------	--

OPTICAL DATA

Reflex collimator sight	Red dot sight
LED (Light Emitting Diode)	Totally eye-safe
Red dot size	2 MOA*
Parallax-free	No centering required
Eye relief	Unlimited
Anti-reflex coating & multilayer coating	All surfaces
Magnification	1X

ELECTRONIC DATA

Battery type	One 3V Lithium battery, type CR2032
Battery life	50,000** hours
Dot intensity regulator	Mechanical switch
Brightness settings	1 off and 12 daylight settings of which one extra bright

MECHANICAL DATA

Material housing	Extruded high strength aluminum
Surface finish	Anodized, semi-matte
Color	Black
Material lens covers	Rubber, black, matte
Adjustment	1 click = 13 mm at 100 meters = 1/2" at 100 yards
Mounting solution	Integrated Weaver rail mount

ENVIRONMENTAL DATA

Temperature range	-30° – +60° C (-20° – +140° F)
Water resistance	Submersible to 5 m, (15 ft)
Radioactive components used	None

DIMENSIONS

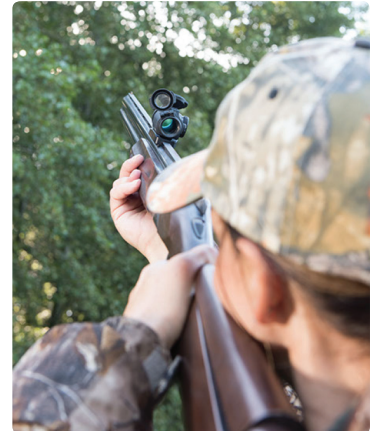

Lenght x width x height (sight only)	68 mm x 41 mm x 36 mm , (2.7" x 1.6" x 1.4")
Lenght x width x height (sight with Mount & Flip-up lens covers)	77 mm x 42 mm x 46 mm , (3" x 1.6" x 1.8")
Width/height - including mount	62 x 41 mm, (2.4" x 1.6")
Weight - sight only	93 g, (3.3 oz)
Weight sight with integrated mount & Flip-Covers	136 g, (4.8 oz)

ARTICLE NUMBER
