

New Leo Club Roars into Action!

At the last Clover Lake Wylie Leo club meeting, students moved benches and cleaned up the garden area so teachers could take students outside for lessons. We are excited to announce that the pathways have already enabled many students with disabilities access to outdoor gardening and learning activities. Pictured are the Clover Lake Wylie Leos standing on a section of the new pathways. A special “thank you” to River Hills Lions Club for contributing a donation to the Gloria Reid Memorial Garden and sharing the Leo’s vision to create engaging learning opportunities for ALL students!
