

## Marlboro County Lions in Action

When Ashley Johnson from the Marlboro County Lions Club contacted Jennifer Hyduke at the Marlboro County Department of Social Services in July and inquired if any of the DSS Clients are in need of air-circulating fans, Jennifer's first thought was the elderly and the youngest clients (our most vulnerable). She contacted Pat Broughton, Adult Protective Services, and other caseworkers at DSS to compile a list of those with the most need. Air conditioning is something we take for granted she stated, but for those who can barely get by, meaning putting groceries on the table, etc., air conditioning is a luxury so these fans will help tremendously!"
