

## Many Thanks for A Successful Year

My time as District Governor of District 32B is coming to a close. It has been great visiting all the clubs in the District, learning about your club's activities, the work that you are doing in your communities and meeting all the fine people that are Lions. I will miss this part of being Governor. There is so much going on at the club level that is not known throughout the District or State. I charge you to keep up the good work. There are so many people out there that need the help of the Lions.

As we move forward into a new year, a new Governor and new officers in the club, I charge each of you to remember the oath that you have taken as an officer. This is an awesome responsibility and the success of Lions in District 32B and our State organization depends on each of you fulfilling the roles that you have accepted and swore to uphold. Success of Lions of South Carolina does not rest with the Governor, the Zone Chairs, the club Presidents, the Membership Chair and etc., but through the team work of each and every person that says "I am a Lion"!

So, as I move into the role of Past District Governor, I thank you again for your support. I will still be around to help and assist in strengthening our great organization. Therefore, I stand ready to assist any club in your effort to continue helping those in need. Remember "We Serve".

DG Jim
