

Train the Trainers

A *Train the Trainer* event for the new SPOT cameras was held early October. This very important training on the SPOT camera usage and the additional HIPPA training was held to prepare districts and clubs for this new way to serve communities. Each district was invited to have at least two Lions trained. These trainees will then take custody of the cameras and in turn will train the Lions of their districts in the use and protection of the cameras. This effort will ensure that Lions will be in every area of the state with this important vision screening service. At the end of our training DG Rick Pressly made Kathy Jones of Welch Allyn PediaVision an affiliated Lion.
