Premier Poms Experience (P.P.E.), a not-for-profit program, was designed with the intention of providing a positive, diverse, safe, and encouraging environment within the realm of a competitive sport.

Premier Poms provides an alternative . . .
an affordable program, a reasonable weekly commitment, Summers off (August-March season),
Plus, super fun community service outings (or as we like to call them “heart adventures”).

Premier Poms follows a C2 sports model, which strives for the team to be competitive and caring simultaneously. This program was created not only to benefit the individual athlete, but her family and community as well.
