

ROBOTICS ACADEMY

Overview

The Chasewood Robotics Academy is a comprehensive after school program where children are learning to design, build, and program robots. Using a creative educational approach that supports Science, Technology, Engineering and Math (STEM), this class is led by Chasewood Learning's teacher-led instruction followed by fun, engaging and dynamic activities.

The Robotics Academy is a repeatable program where children are placed based on skill and experience. Students advance each time they take the class to take on more advanced concepts.
