

Promoting Legislative Excellence

*Aquarion Water Company
is proud to support the
**Bridgeport Regional
Business Council**,
and urges all members
to become active in
governmental affairs by
getting in touch with
your local legislators.*

**Get smart. Get active.
Get involved.**

**Creating Opportunities
for Business Growth**

2016 Directory of Elected Officials

**Your guide to local, state
and federal government officials
serving the Greater Bridgeport Region**

Message from the President

To BRBC Member/Investors:

The way in which we choose to address complex and significant issues that we currently face as a nation, a state, and a region, will most assuredly define who we are and whether or not we will progress in the years ahead. The time is critical for a united and engaged business community to make its position emphatic on how jobs are grown and economies expand.

The message about the importance of such growth must be communicated repeatedly to those that are elected to make decisions on our behalf. In 2016, we are optimistic that our elected officials, beginning with our Governor, have heard that message. Today job growth is a reality in Connecticut, but we still have much work to do to create the kind of vibrant economy that we all desire.

The *Bridgeport Regional Business Council* delivers important opportunities for local businesses to engage our legislative leaders year round. These opportunities offer exclusive access to elected officials via BRBC events.

Additionally, *BRBC* communicates our message of job growth and business growth through a variety of publications seen by many in the halls of government. It is our hope that, one of those publications, this 2016 Directory of Elected Officials will be an often used and useful tool for our member businesses to better engage elected officials in all levels of our government.

Certainly our work this year will be very difficult as our ability to do business in this state depends on how well the legislature keeps its eye on controlling expenses, reducing debt and creating an environment for investment. Business taxes, worker's compensation reform, health care costs, property tax reform, infrastructure investment, energy costs and availability, and education reform remain our organizational priorities. And we intend to be diligent in talking with legislators about these matters.

The challenge is the ability to unify our state's business interests around this agenda which ultimately will serve to limit the cost of doing business in our state and improve the environment for economic growth. That is why the *Bridgeport Regional Business Council* is actively engaged with CBIA and the Metro Chambers to assure a statewide unified voice around a pro-growth agenda.

We urge our members to continue to pay attention and to get involved and let us know of your concerns so that we may more effectively and uniformly carry our message to Hartford, Washington and local officials. The *BRBC*, through our staff, Board of Directors, affiliate Chambers of Commerce, and our Government Relations and Transportation Committee will represent the interests of your business.

If you want to get involved in the *BRBC's* legislative efforts on your behalf, please call me at 203-335-3800 or e-mail me at Timpanelli@brbc.org
