

Attention, People Who Like to Have Fun!

Do you like watching strong people throw telephone poles?

Of course you do! Who in their right mind doesn't love the traditional re-enactment of Scotsmen throwing stripped trees across streams and rivers to make temporary bridges?

The tapered poles are actually “cabers,” and the Caber Toss is a highly popular element of Scottish Highland Games. The goal is not distance of the toss, but rather the straightness of the landing. (You know, because you're trying to *make a bridge*.)

Which is a long way of telling you that, for the **first time** ever, Lime Rock is hosting the [Scottish Highland Games & British Car Show](#), as organized for decades by the highly respected Round Hill Highland Games of Trumbull, Conn., a non-profit organization. This is the 92nd year!

Lime Rock's Infield is a perfectly gorgeous place to host the Scottish Highland Games, which are much, much more than caber tossing.

Look what else is part of fun!
