**Compete on the National Level****NATIONAL AGC SAFETY AWARDS (NASA)**

Information, Eligibility &amp; How to Enter

**About the AGCA NASA Safety Awards:** The National AGC Safety Awards (NASA) program has been an ongoing effort since 1991 to offer AGC members an opportunity to evaluate their safety record. NASA compares an AGC member's safety record with other AGC members according to the member size and construction type. Additionally, NASA provides a great opportunity for contractor members who have excellent safety records to compete for nationally recognized awards.

**Who Can Participate:** AGC contractors **with direct-hire and job-site craft laborers** are eligible to compete in one or more of the following categories:

- Building
- Highway
- Associate/Specialty
- Heavy/Industrial
- Municipal/Utilities

**How the Program Works:** This program is similar to the Bureau of Labor Statistics and Occupational Safety and Health Administration (BLS-OSHA) recordkeeping systems.

The data is tabulated to produce total lost workday case incident rates (excluding restricted workdays). The formula for computing "incident" is structured to multiply the incident cases involving days away from work (N) times 200,000. The resulting product is then divided by the work hours of exposure (WH). The formula is the days away case incident rate.

The formula follows:

$$\text{Days Away, Case Incident Rate} = \frac{\text{N} \times 200,000}{\text{WH}}$$

(WH) is the number of work hours for the calendar year 2015 (including office hours). N is the number of days-away-from-work cases, which represents the number of cases resulting in days away from work, but does not include job transfer or restricted activity. N is obtained from the total amount of entries recorded in the Number of Cases section (H) of the OSHA form 300A.

The completed OSHA 300A Summary of Work-Related Injuries and Illnesses provides the information needed for contractor participation in the NASA Program. Information on days-away-from-work cases is found in section (H), fatality information can be obtained from the number of cases section (G) and the work hours can be found in the establishment information section.

**Eligibility:** AGC contractor members must have participated in the National AGC Safety Awards Program for three consecutive years in order to be eligible for an AGC award. This means a member must have participated in the program for the years **2013, 2014 and 2015** in order to be eligible to receive an award for 2015.

**How to Enter for NASA:** All contractors must complete the attached “2015 Safety Data Entry Form” (note that you will need to transfer information from your OSHA form 300A “Summary of Work-Related Injuries and Illnesses”) and return it to the attention of Bill Stricker at Carolinas AGC by fax at 704-332-5032, by email to [bstricker@carolinasagc.org](mailto:bstricker@carolinasagc.org) or by mail to CAGC Foundation, 6115 South Park Drive, Suite 350, Charlotte, NC 28210 by January 30, 2016.

**\*\*2015 Safety Data Entry Form is attached.**

**AGCA NASA Awards:** Safety awards are given to members who have a zero incident rate or who have an incident rate 25% below each occupational division’s average (AGC divisions include: Building, Highway, Heavy/Industrial, Municipal/Utilities and Associate/Specialty.)

- AGC provides awards to members who have participated in the awards program for three consecutive years and have an incident rate below 25% of their division rate - **Certificate of Commendation.**
- AGC provides awards to members who have participated in the awards program for three consecutive years and have a zero incident rate – **Certificate of Commendation.**
- AGC will send all Member awards to the Carolinas AGC for distribution.
- AGC will send a report for all members that submit their safety data.

**Compete on the Local Level**
