Winter Enrichment 2016

The Burlingame Elementary Enrichment Program has consistently provided a variety of classes for students at all 5 of the Burlingame Elementary Schools. Classes are held at the school sites after school; children may attend classes at schools in which they do not attend during the regular school day. Children who take after school programs over the course of their lifetime consistently improve test scores in school, have better than average social skills, and tend to participate in less mischievous activities. After school enrichment programs have a proven benefit for your children, your family, and the community.
