

# Tech Time!

## April 25th - April 29th, 2016

Dear Friends,

Welcome back to another exciting edition of Tech Time featuring technology wonders created by tech-savvy students! For this edition, the super student coders and I invite you to revisit our coding display by using the link below. We have continued to add new projects, since our last edition, that involve artist sequencing. During this challenge, fourth grade coders needed to create a program to complete an image using sequential steps!

### [Coding](#)

Our next edition of Tech Time will be during the week of May 9th, and will include another link so you can check out more of our 'coderific' programs. This edition will also be the last 'Tech Time' for this school year. Until then, happy computing, be well, and stay tuned for some exciting technology news in the coming weeks!

In friendship,

Teacher Scott and the Student Volunteers
