

## Tech Time!

### Helpful Information for using Technology at Home

May 18th - May 24th, 2015

Dear Parents,

Welcome back to another edition of Tech Time! Before I begin describing this week's material, I'd like to mention that this will be the final edition of Tech Time for the 2014-15 school year. It has been an absolute pleasure providing weekly technology tips throughout the school year for you and I look forward to starting it up again in September!

Now, onto this week! Here is the final part of my series on summer and technology, and it provides information regarding some neat little electronic gadgets for your boat while out on the water. Everything from software for sailing to side vision sonar is included in this [site's](#) review for all you wonderful boaters (ahoy) out there!

If you have any questions, please feel free to contact me at school. I can be reached by email: [scott.friedman@goshenfriends.org](mailto:scott.friedman@goshenfriends.org) or by phone:

610-696-8166.

As always, I hope you find this week's edition helpful for your technology needs at home and while on vacation. Until next September, have a super fun and relaxing summer, happy boating and happy computing!

In friendship,

Teacher Scott
