

Teaching Successful Science Lessons in Afterschool

Explore **curriculum** Practice **strategies** Apply **concepts**

May 16, 2015

9:00am-Noon

Library Seminar Room in the Guin Library

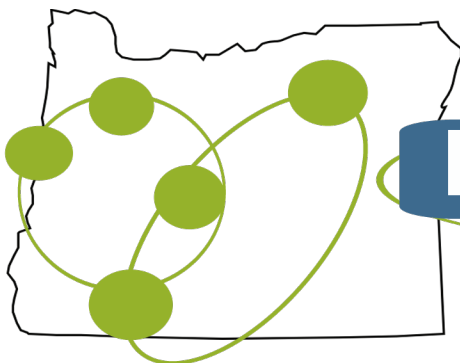

Hatfield Marine Science Center

2030 Southeast Marine Science Drive

Newport, OR 97365

FREE for school-age providers

Participants will explore the Techbridge Curriculum and its focus on the Engineering Design Process. Participants will practice the Engineering Design Process through hands-on activities in the curriculum. Participants will explore questioning strategies and develop strategies for encouraging reflection as their older elementary, middle and high school students participate in the lessons.
