

PROJECT UJIMA

Collective Work & Responsibility

The word Ujima ("oo-JEE-mah"), a Ki Swahili word means: "To build and maintain our community together and make our brother's and sister's problems our problems and to solve them together."

The Buchtel Community Vision Statement **Created on October 13, 2011, at the Project Ujima Kick-off**

We envision a community that values diversity and maintains high standards in a safe and nurturing environment that builds independence and economic self-sufficiency, while educating our community in the knowledge of self and promoting a healthy quality of life for all throughout the life cycle.

There are many ways to participate in the work, family and fun of Project Ujima!
