GREATER HOUSTON CHAPTER community ASSOCIATIONS INSTITUTE

Our mission is to be a source of education and information which advocates the use of best practices, professionalism and integrity in order to promote responsible community associations and those who serve them.

It's been said that the growth of community associations (condominiums, planned communities and cooperatives) offers the greatest single extension of homeownership opportunities since the housing reforms of the New Deal and the provision of the GI Bill benefits just after World War II. CAI estimates that in 1970 there were 10,000 community associations nationwide. In 2014, there were 333,600 associations housing more than 66.7 million Americans.
