Broadcast Video Expedition 2016

When: February 23-25, 2016

Where: ExCeL London

Royal Victoria Dock 1

Western Gateway

London E16 1X

BVE is the UK's largest event for professionals involved in taking content from creation to consumption. It attracts in excess of 15,000 visitors from more than 60 countries and combines expert-led free seminars with an exhibition that features 250+ of the leading manufacturers, distributors and resellers of professional production and broadcast equipment and systems. Covering everything from camera accessories to 360° workflow solutions, BVE truly is the essential broadcast and production technology event.

QolorFLEX™ Led Tapes

We have more than doubled our product line of high quality professional [QolorFlex™ LED tapes](#), and have added additional color temperatures, voltages, LED types and LED spacings in both indoor and outdoor versions, and in both 12V and 24V to meet the needs of more and more lighting users. No matter what your challenge, it is very likely we have a professional quality LED tape to meet your needs. [QolorFlex™ LED tape](#) has already played a part in hundreds of network television broadcasts, feature films, and Broadway and West End shows. When your reputation depends on it, choose the LED tape that professionals use, City Theatrical [QolorFlex](#).

SHoW DMX® Neo wireless DMX

City Theatrical's multi award-winning [SHoW DMX® Neo](#) is the wireless DMX of choice for lighting professionals on Broadway and West End shows, permanent entertainment and architectural installations, and major music tours such as the U2's 360 Degree Tour and Taylor Swift 1989 Tour. Our [SHoW DMX® Neo wireless](#) is now equipped with Maximum Bandwidth Technology™, which allows allows SHoW DMX users to avoid nearly all broadcast interference by confining their radio output to the general area of Wi-Fi channel 14, which is

not used at all in the U.S. and is used relatively less in other countries. The new, sixth, SHoW ID in [SHoW Baby® 6](#) gives [SHoW Baby](#) Maximum Bandwidth Technology™ to help avoid interference in a crowded spectrum.

LED Dimmers

Our [LED Dimmers](#) are found on shows and in TV studios around the world. When quality of dimming is important to the show, lighting designers and consultants choose City Theatrical. Our [dimmers](#) dim completely smoothly throughout here entire range and don't snap on or off like most other LED dimmers. Our dimmers are rich in features that make them easier to install and use, such as bump buttons, and other innovative features depending on the model. Some models include advanced user interfaces and local level settings so no external lighting controller is needed.

There is no other range of [LED Dimmers](#) like ours, from tiny [Dimmers](#) with our award winning [SHoW DMX](#) built in, to large and powerful [Dimmers](#) with power supplies built in.
