

## **Robinson Student Artist: Wilfredo Hernandez**

The student who created this design for the Upcoming “Havana Knights” event is Senior, Wilfredo Hernandez. Ironically, he is originally from Cuba and moved to the states as a young boy. He is seventeen years old and loves his rich Cuban heritage. He remembers playing sports in the streets with his friends and the strong sense of family and neighborhood he enjoyed while living there.

As you can see from the self- portrait Wilfredo created while enrolled in Drawing 1 this year, he is quite an accomplished artist. He spent much time this year mentoring other students in class, helping them move their skill level further along

As seen in the “Havana Knights” digital design, Wilfredo also loves designing images and manipulating them on Photoshop. He hopes to put his artistic skills to good use after he graduates when he plans on studying architecture.
