Share the Good News

According to an ancient story, there were four men walking through the woods, suddenly, they came across a high wall. Intrigued, they built a ladder to see what was on the other side. When the first man climbed to the top, he cried in delight. The same thing happened with both the second and third men. When the fourth man reached the top, he smiled at what he saw: lush, green gardens with fruit trees of every kind, streams teeming with fish, and animals, wild and tame, in abundance. Like the others, he was tempted to jump down. But he then thought of his family, friends and neighbors, and went back to share with them the good news he had discovered.
