Product Family: Classic Steel
Product Series: Model 8300
Topic: Expanded Heights

To: All Wayne Dalton Dealers
From: Mark Sawicki
RE: Expanded Heights for 8300

Effective today, we will be offering expanded heights for the 8300. Previously, ordering an 8300 above 9' was a special order (or required a commercial door to be selected), but now heights of up to 14' are available through Partner Connect and direct order entry (DOE).

The new size limits for both the 8300 will be 18'4" x 10' and 16'2" x 14'. Additionally, Model 8300 will now have expanded track options to include High Lift, Vertical Lift, and Roof Pitch. For doors over 14'2" wide and over 9'2" tall will utilize commercial track with double end hardware.

Even though this is a small change, we know that every minute of your day as a business is important and wanted to let you know that we are constantly looking for ways to improve how you run your operations.

If you have any questions, please contact your customer service team or DSM.

Thanks,
