FSA IDs

Purpose

The Federal government created the FSA ID to increase online security for students and parents. FSA IDs take the place of the four-digit PIN that was used to electronically sign FAFSA and to access student loans.

The FSA ID consists of an email, a user name, and a password.

Before Creating an FSA ID

You will need the following to create an FSA ID:

- Your email address and password
- Your PIN
- Your social security number

When you create the FSA ID, you will need a **permanent** email address. This email will be used to sign FAFSA and access Federal student loan information indefinitely (essentially, until you stop receiving financial aid and/or you pay off any student loans you may borrow). In the event that you forget your password, you can reset the password through your email. This will be the **only** way to reset a password.

Have your email address and password accessible before creating the FSA ID. You will need to log into your email to obtain information to complete the creation of an FSA ID.

If you have a PIN, you can use it help verify the security of your FSA ID. Have it on-hand. If you don't have a PIN, you can still create an FSA ID.

If you or your parents don't have a social security number, an FSA ID cannot be created. However, you can still complete the FAFSA by printing a signature page and mailing it to FAFSA.

Tips for Creating the FSA ID

When you create the username and password, you can click a box that says "Show text." I recommend you click this box to reveal the text you type into each box, and then save this information somewhere safe and secure.

You will need to create five security questions and answers. Two of the questions will be provided through a drop down menu. You will need to create three questions of your own. Pick one-word answers. Click the "show text" option, and take a picture of your answers.

You will also be asked to enter an important date. You're not supposed to use your birthday. Some suggestions for important dates could include your graduation date, or a birthdate of a sibling or parent/guardian. Ultimately, pick something that you will remember.

FSA ID Website

The process should take about 10-15 minutes, depending on your recollection of your email, password, PIN, and social security number.

Go to <https://fsaid.ed.gov/npas/index.htm> to begin.

Please contact Ms. Maez in the Future Center if you have any questions: rmaez@denverscholarship.org or 720-423-7134.
