Several times each year, Whole Foods Market stores hold community giving days (otherwise known as "5% Days") where five percent of that day's net sales are donated to a local nonprofit or educational organization. The groups that benefit from these 5% Days are as varied as the communities themselves. Each year Whole Foods Market gives a minimum of 5% of its net profits to nonprofit and educational organizations in the locations where the company has stores.

Examples of the types of organizations supported include:

- Education: school support organizations, after-school organizations, etc.;
- Community and culture: arts organizations, museums, parks, etc.;
- Human interest: elder care, children and youth, homeless assistance, etc.; and,
- Environmental issues: organic food and farming, natural wildlife protection, green living, etc.

Along with cash donations, Whole Foods Market donates food and other products to area food banks and shelters. Organizations interested in applying for support should contact the Marketing Director at their local store or complete the donation request form available on the company's website.
